Foreword

This rule is issued by Zhongsheng Deshang Inspection and Certification (Chengdu) Co., Ltd.

The copyright of this certification rule is owned by Zhongsheng Deshang Inspection and Certification (Chengdu) Co., Ltd. No organization or individual may use it in whole or in part in any form without the permission of Zhongsheng Deshang Inspection and Certification (Chengdu) Co., Ltd. (except as required by law).

1. Scope of Application and Basis Standards

This certification implementation plan applies to the product certification of Baijiu produced by solid-state fermentation using pure grains (excluding tubers) as raw materials. (Note definitions: Grains: GB/T 15109-2021 3.1.1, Solid-state fermentation method: GB/T 15109-2021 3.4.1, Technical specification for pure grain solid-state fermented Baijiu production: DB37/T 1271-2009 3.1)

Certification

basis:

CTS CRCB024-2026 "Technical Specification for Certification of Pure Grain Solid-State Fermented Baijiu"

2. Certification Mode

Initial factory inspection + Product sampling inspection +
Post-certification supervision

Post-certification supervision refers to one or a combination of follow-up inspections after certification, and sample testing or inspection at the production site.

3. Certification Implementation Steps and Requirements

3.1 Certification Process:

The basic certification process includes:

- a) Certification application
- b) Initial factory inspection
- c) Product sampling inspection
- d) Certification result evaluation and approval
- e) Post-certification supervision

Note: Initial inspection includes document technical review and on-site inspection.
