Road traffic safety management system certification rules

1 Purpose and Scope

1.1 This rule is used to regulate Road Traffic Safety Management System (RTSMS) certification activities.

1.2 This rule, based on relevant laws and regulations on certification and accreditation and in conjunction with relevant technical standards, makes specific provisions for

standardizing the RTSMS certification process, clarifies the relevant responsibilities in the RTSMS certification process, and ensures the standardization and effectiveness of RTSMS certification activities.

1.3 These rules are the basic requirements for this organization in RTSMS certification activities, and all RTSMS certification activities shall comply with them.

These rules.

2 Management requirements of this organization

2.1 This organization follows GB/T 27021/ISO/IEC 17021-1 Requirements for Conformity Assessment Management System Audit and Certification Bodies Manage the capabilities and processes involved in RTSMS certification;

2.2 Our organization has established internal checks and balances, oversight, and accountability mechanisms to separate the RTSMS training, certification, and certification decision-making processes to ensure impartiality.

2.3 The RTSMS certification provided by this organization can be combined with Quality Management System (QMS) and Environmental Management System (EMS). EMS The organization conducts certification activities for Occupational Health and Safety Management System (OHSMS).

3 Certification personnel requirements

3.1 Personnel participating in RTSMS certification activities should possess the necessary personal qualities and education, training, and/or work experience in areas such as quality management systems.

3.2 Certification personnel participating in RTSMS certification should meet the following criteria:

(1) obtained certification from the China Certification and Accreditation Association (CCA) Road traffic safety registered auditor qualification. (2) Professional certification personnel should possess the relevant industry expertise (assessed according to the QMS professional competence evaluation criteria). (3) (Having received training on RTSMS-related standards)

4. Certification basis

4.1 RTSMS certification criteria include:

GB/T 39001-2019 idt ISO 39001:2012 "Road Traffic Safety Management System - Requirements and Guidance for Use"
