Forword

These rules are issued by Zhong Sheng De Shang Inspection and Certification (Chengdu) Co., Ltd.

The copyright of these certification rules belongs to Zhong Sheng De Shang Inspection and Certification (Chengdu) Co., Ltd. Any...

No organization or individual may use the license of Zhong Sheng De Shang Inspection and Certification (Chengdu) Co., Ltd. without permission.

Use in any form, in whole or in part (except as required by law).

1. Scope of application and applicable standards

This certification implementation plan applies to the certification of steel bracket products for solar photovoltaic systems. Certification basis:

JG/T 490-2016 General Technical Requirements for Solar Photovoltaic System Supports

2. Authentication Mode

The certification process consists of: initial factory inspection + product sampling inspection + post-certification surveillance.

3. Certification Implementation Stages and Requirements

3.1 Certification Process:

The basic certification process includes:

- a) Certification application
- b) Initial inspection
- c) Product sampling inspection
- d) Evaluation and approval of certification results
- e) Post-certification surveillance

Note: The initial factory inspection includes document and technical review and on-site inspection.
